

## OUR PLAY STATEMENT

At Let Loose! we believe all children should be free to play outdoors and should be provided with enriched materials to explore their imaginations, their physicality, their friendships and the world around them

Let Loose! aims to expand our Outdoor Play and Learning program to schools across the county to better facilitate students' access to self-directed outdoor play

To support outdoor, child-directed play in schools, Let Loose! has created an easily accessible and safe environment and we aim to become established as a core pillar of environmental education, alongside environmental literacy and stewardship
